

The Kingdom Of Sound
Early Childhood Music Program
(From 3 years old - Introduction to Music)

The Kingdom Of Sound

Early Childhood Music Program

The Kingdom of Sound is a music program designed to take young first time music explorers on an interactive journey into the world of music. The program has been created to first and foremost instil a love and appreciation for music while introducing young students to key foundational music concepts. By means of interactive games, songs, stories, and activities each lesson takes the students on a fantastical journey through the 'Kingdom Of Sound' where the students explore foundational music theory, ear training and rhythm development.

In this first of its kind early childhood music program the students will discover the world of music alongside Little Zee, the protagonist from our accompanying storybook: "The Adventures of Little Zee in the Kingdom of Sound".

Little Zee's epic adventures across imaginative landscapes will equip the students with foundational music knowledge and skills while diving deep into the mesmerizing history of music, as well as the exciting new world of today's music across all genres and cultures. With our colourful entourage of whacky musical friends from 'The Kingdom of Sound', we will embark on a voyage around the world to visit kids just like us to learn more about them and how music fits into their world.

Music lives in all of us and unites us across our differences - Lets teach our kids to love, and how to love and enjoy music while we equip them with the knowledge to become the next generation of songwriters, performers, producers, composers, entertainers, and incredible human beings.

About the program creator

Francois Klark (Mulder) is a Canadian based, South African native, music educator/songwriter/singer/producer. He completed his Bachelors in Music at Thompson Rivers University (British Columbia) and is also a graduate of the Humber College Jazz Diploma Program (Toronto). Francois has been a music educator for just over 9 years and currently teaches at The Toronto Institute for the Enjoyment of Music where he built and spearheads the early childhood music program.

Klark has worked on projects with Universal Music Group UK and is a Universal Music Award winner. He has collected a number of awards including the Oscar Peterson Award, Standard Bank Award for best original composition, Most Promising Performing Solo Artist and he has also been awarded finalist in several international songwriting competitions.
